the history of  
astrophysics is littered  
with such prediscovers  
or instances of theoretical  
anticipation" david layzer  
May 2nd, 2020 - david  
raymond layzer december  
31 1925 august 16 2019  
was an american  
astrophysicist  
cosmologist and the  
donald h menzel  
professor emeritus of  
astronomy at harvard  
university he is known for  
his cosmological theory  
of the expansion of the  
universe which  
postulates that its order  
and information are  
increasing despite the  
second law of  
thermodynamics'
