Specification Version 1 0

March 15th, 2004 - This document defines syntax for representing grammars for use in speech recognition so that developers can specify the words and patterns of words to be listened for by a speech recognizer. The syntax of the grammar format is presented in two forms an Augmented BNF Form and an XML Form. The ''**Hidden Markov model**

**Wikipedia**

April 30th, 2018 - *Hidden Markov Model* HMM is a statistical Markov model in which the system being modeled is assumed to be a Markov process with unobserved i.e. hidden states. The hidden Markov model can be represented as the simplest dynamic Bayesian network.
