'artwithhillary the polarities of richard serra

*May 20th, 2020 - richard serra 1938 has been
challenging one s perception of objects in space
for over fifty years through his sculpture this
octogenarian addresses questions such as what it
means to look left or right or around convexity or
concavity he deals with the properties of the
material involving effects of weight and how
varying scales of solids displace space differently
in the same place'*
