June 2nd, 2020 -
what are the best
most impressive and
easiest
astrophotography
targets to capture
all year round
without a telescope
you can easily
photograph many
deep sky objects
with just a dslr
camera and a tripod
here are our pick
for the 15 best
wide field targets
with no telescope
with examples for
each and what lens
to use'

'astrophotography
targets for
february
May 31st, 2020 -
astrophotography
targets for
february object i
didn't need a
catalog my target
choices were either
the orion nebula or

the whirlpool
galaxy everything
else looked like a
brownish blob of
varying texture and
fuzziness now that
cameras and my
skills have
improved i have
more choices every
month i pore
through my catalogs
