'endangered species simple english the free

May 25th, 2020 - an endangered species is a species a population of animals, plants, or other animals that is in danger of becoming extinct. This could happen because there are few of that animal left, its predators have grown in number, or the climate that it lives in is changing, or the places it lives in have been destroyed. The World Conservation Union (IUCN) has worked out that endangered species are 40'
