ECE 210 Analog Signal Processing ECE ILLINOIS

October 9th, 2018 - ECE 210 is a required 4 hour course for both electrical engineering and computer engineering majors. The goals are to provide a solid foundation in analog signal processing that will serve as a strong base for further study in digital signal processing, communications, remote sensing, control and electronics."University Of Illinois Welcome to the iOptics Lab

September 16th, 2018 - In our lab we develop state of the art imaging and display technologies for a variety of applications. We are particularly

interested in developing innovative imaging solutions for healthcare and biomedicine'
