'Spatialization as a musical concept

March 25th, 2020 - Space time and sound have  
always been tightly bound to each other within  
our musical consciousness yet this  
interrelationship was identified only relatively  
recently with respect to the history of music  
From the time that space was discovered as a part  
of musical structure and performance it took many  
years to recognize spatialization as an aesthetic  
musical concept Since 1950'
